Kellogg brought up the agreement otober 17, 1877, relating to the re-paid to the Standard Oil Company trunk line railroads, the Standard ceing to give to the Pennsylvania liroad not less than 2,000,000 barrels oil as shipments every year. Mr. logg wanted to know why it was essary for the other trunk line roads neessary for the other trunk line roads pay to the Standard 10 per cent. in tates, the percentage which the Pennsylvania agreed to pay, and why the Pennsylvania itself should have paid the 10 per cent. Mr. Rockefeller said that from a hurried reading of the agreement, a copy of which Mr. Kellogg had given him, he "might say that our part of the contract assured the Pennsylvania something valuable in guaranteeing large and continuous shipments instead of small and irregular ones."

Mr. Rockefeller continued in response to a further question on the same line:

Mr. Rockefeller continued in response to a further question on the same line; "It was nothing more nor less than what was the practice in those days regarding oil and everything else. A shipper of large consignments could always get considerations and advantages, especially if he had regard to certain terminal arrangements favored by the railroads."

"Under this agreement," Mr. Kellogg asked "did you pay freight on any oil that you did not ship? Or did you ship when you did not want to?"

"We shipped to ports that we should have preferred not to," said Mr. Rocke-feder. "It is impossible for me to say now, after thirty years, what ports, but I know generally that we did ship to ports other than those which we would have preferred, that shipments were so di-verted."

Mr. Kellogg wanted to know who Daniel d'Day was, and Mr. Rockefeller said that he was "well known as Daniel O'Day—oh, yes; Dan was very well known."

Mr. Kellogg read a letter written by O'Day to A. J. Cassatt, then third vice-president of the Pennsylvania Railroad.

"I could not say."
"Do you know that O'Day and Cassatt estified that your American Transfer ompany received the 20 cents per barrel on shipments made by outside shippers?"
"My attention may have been called that testimony

Isn't it true that that 20 cents was seeived?"

"It is true that a contract was made. To what extent anything was received inder it I do not know." After recess Mr. Rockefeller said that

He "didn't recall" whether rebates were paid then or not. He "had nothing to do" with the payments. He had, however, as Mr. Kellogg reminded him, signed an agreement that the Pennsylvania might make known its rates to other roads and that the Standard would not accept further rebates. All Mr. Kellogg could get out of bates. All Mr. Kellogg could get out of im on this point, however, was that he

"How is it," saidMr. Kellogg, "that you "How is it," said Mr. Kellogg, "that you could recall the 10 per cent. rebate payments yesterday and cannot to-day recall these greater and more important payments?"

DRASTIC STEPS TO STAMP OUT FOOT AND MOUTH DISEASE.

Pennsylvania's-Sickness Seems to pite. Have Come Via Buffalo-Bars Up Abroad-Dear Meat and Heavy Losses.

WASHINGTON, Nov. 20 .- The Bureau of nimal Industry has taken steps to enforce the quarantine proclaimed yesterday by Secretary of Agriculture Wilson in Pennsylvania and New York on account of the prevalence of the foot and mouth there. Fifty men have been detailed for duty in New York and sixty in Pennsylvania. Slaughtering cattle, sheep and other ruminants and hogs affected is the method adopted to eradicate the disease. The owners of the animals will be compensated. Hay, straw and hides will have to be disinfected before shipment to other States.

The regulations proclaimed provide that during the existence of the quarantine the interstate and foreign transportation movement or trailing or driving of cattle, sheep, other ruminants and swine from the States of Pennsylvania and New York is prohibited.

State officials of Pennsylvania and New York have assured the Department of their hearty cooperation.

This is the second serious outbreak of the disease, the first occurring in New England about six years ago. The Department is making arrangements for pens on railroads where cattle shipped into the two States from other States can be watered and fed without fear of in-

Three diamond rings, two diamond bracelets, a gold chataleine bag, two

bracelets, a gold chataleine bag, two gold necklaces, a half dozen stickpins and \$100 in cash were among the things stolen. Most of these things belonged to Mr. Schmidt's daughter Grace, who is to be married next Wednesday to Karl H. Klappert of 873 West End avenue.

In an adjoining room, locked up in a small safe, were about \$6,000 worth of wedding presents, but the thieves either didn't know about that or eise they didn't dare to try to break open the safe. Besides Miss Schmidt's room the only other place the thieves visited was the bedroom of Mrs. Schmidt.

of Mrs. Schmidt.
Entrance to the Schmidt house was gained through the skylight. As the police traced back their course the thieves had started by getting onto the roof of a five story vacant flat house at 103 West 118th street. They tore down a clothes dryer and bridged the eight foot airshaft between 103 and 105 with the pole.

shaft between 103 and 105 with the pole. It was a twenty foot drop to the roof of 107 and they took this by sliding down the rope with which the clothes dryer had also supplied them.

It was just plain walking across the roofs of a row of three story brownstone front dwellings until the men reached the Schmidt place. On the way over they tried to enter Dr. Krollpfeiffer's house, at 113, but the catch on the skythey tried to enter Dr. Krolipfeiffer's house, at 113, but the catch on the skylight was too strong for them to break. When they had once reached the Schmidts, they did their work so quietly that the family dining almost underneath their feet did not hear a warning

On Sunday night the house of Alderman Samuel Marx, at 100 West 119th street, was entered and \$700 or \$800 worth of valuables taken.
